* (H-102) Electrical Theory & Application, (H-202) Heating, (H-302) Air Conditioning, (H-402) Refrigeration, (H-502) Troubleshooting, (H-602) Installation and (H-902) Heat Pumps all require the same text book.

The total cost of education is charged at the rate in force at the beginning of the program/course. Entering students are assured of no increase in tuition as long as enrollment is continuous. Students should be aware that when estimating their complete cost of attendance, costs in addition to tuition and books, such as living expenses, personal expenses, and transportation expenses should be considered.

Re-entry within 180 days – if a student is granted readmission to the program within 180 days of their last date of attendance, the student may apply for financial aid funds to cover any outstanding balance they incurred prior to leaving school.

Re-entry after 180 days – if a student is granted readmission to the program after 180 days and the student incurred a balance prior to leaving school, the student must pay 25% of the outstanding balance and establish a repayment plan with the Institute prior to returning to school.

EPA Testing Fees

Both the R-410A and the EPA-Section 608 (excludes NATE) are offered to students at no cost, one time, as part of their Heat Pumps and Refrigeration classes. Students who wish to take these exams outside of their classes are required to pay the testing/retesting fees and are responsible for scheduling make-up or retest exams with the Attendance Manager.

R-410A Certification Exam:

Book Fee \$30.00
Test Fee \$50.00
Total Cost \$80.00

EPA – Section 608 Certification

Test Fee \$50.00
Book Fee \$10.00
Total Cost \$60.00
